

**NOTICE OF PROPOSED SOLE SOURCE PROCUREMENT  
this is not a competitive bid/proposal**

The Utah Transit Authority (UTA) Procurement Policy provides that sole source procurements may be used only when the Award of a Contract is infeasible under other source selection methods, and at least one of the following circumstances applies: (a) The required goods or services are of a specialized nature requiring expertise that is only available from a single source; (b) The public exigency or emergency for the required goods or services will not permit a delay resulting from competitive solicitations; (c) After solicitations of a number of sources, competition is determined inadequate.

The UTA Purchasing Department has received a request to make the following sole source procurement:

**Product and/or Service to be purchased: Mobile Radio Development and Hardware**

**Contract Duration: One time purchase**

**Proposed Sole Source Supplier:** AdvanceTec Industries

**Estimated Total:** \$2,625,000

**Sole Source Justification: AdvanceTec Industries is uniquely qualified to seamlessly integrate with UTA's existing Bus, Rail, and White fleet systems. They provide a Push-to-Talk (PTT) application and off-air radio recording system specifically developed for UTA. Their mobile units are designed to fit within the operational constraints of the fleet. Additionally, their cost-effective pricing structure is justifiable compared to other vendors, who would require significant modifications, additional development, or system overhauls, resulting in higher costs.**
