

Proposed Service Change Package:

5600 WEST SERVICE CHANGES

Counties Served: Salt Lake

UTA Moves 2050 Alignment: Phase 1.

RTP Alignment: Wasatch Choice Vision Phase 1.

DESCRIPTION:

Enhanced bus service along 5600 West and connections to the International Center, SLC Airport, and downtown Salt Lake.

BENEFITS:

The 5600 West Service Change package expands transit coverage in a rapidly growing part of Salt Lake County while reducing redundant service. It aligns with the Mountain View Corridor Record of Decision, shifts away from Flex Routes, and improves efficiency and consistency across the network. By connecting west Salt Lake County to major employment centers and key destinations, the project enhances regional mobility, reduces congestion, and increases access to transit. Planned stop and station upgrades will further improve the rider experience, while fulfilling the UDOT-UTA agreement to provide transit service along the Mountain View Corridor and supporting coordinated growth and investment.

IMPACTS:

The implementation of the Route 256 carries a substantial cost and demand for resources.

PROPOSED SERVICE CHANGE

- Discontinued Routes: F556
- Route Modifications: NA
- New Services: 256
